# Big Water Rigs

**Tanker 321  
2,000 gal Tanker  
Canoga FD  
Canoga, New York**

# Facts & Figures...

- Tanker 321 is a 2,000-gallon tanker operated by the Canoga Fire Department located in the Finger Lakes Region of New York.
- The rig is a locally fabricated tanker built on an International chassis.
- It has a Honda 250 gpm portable pump and is outfitted with 10-inch rear and side dumps.
- The Canoga FD protects a semi-rural area of Seneca County, New York.

# Canoga Tanker 321

This 2,000-gallon tanker is built on a single-axle, International chassis.

# Canoga Tanker 321

The short wheelbase makes for easy maneuvering over the winding roads in the Canoga FD's response district.

# Canoga Tanker 321

The tanker was fabricated locally and is designed to simply haul water. It carries a small, 250 gpm portable pump but uses its 10-inch dumps for offloading its water.

# Canoga Tanker 321

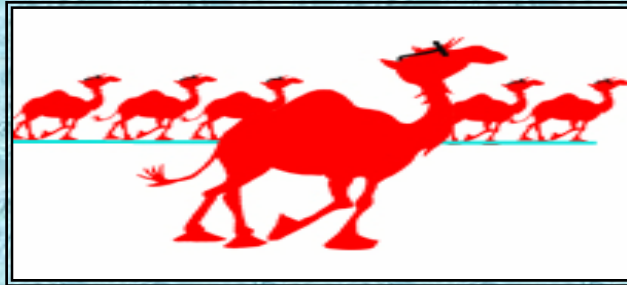

In addition to the rear dump, the rig also has two, 2-1/2-inch direct fill lines – one of which is outfitted with a 4-inch Storz adaptor – shown above.

# Canoga Tanker 321

Tanker 321 is shown here dumping its water at a water supply drill in nearby Ovid, NY. This smaller tanker can offload very quickly and get back on the road for another load.
