# Big Water Rigs

**Tanker 1321  
3,000 gal Tanker  
Romulus VFD  
Romulus, New York**

# Facts & Figures...

- Tanker 1321 is a 3,000-gallon tanker operated by the Romulus Volunteer Fire Department located in Seneca County, New York.
- The rig was built by Kurtz Welding on a 1987 Western Star chassis.
- It has a 250 gpm portable pump and is outfitted with a 10-inch rear dump and 4" and 5" direct fill lines.
- Tanker 1321 carries a 2,500-gallon dump tank.
- The Romulus VFD protects a rural area of Seneca County in the Finger Lakes Region of New York.

# Romulus Tanker 1321

Tanker 1321's short wheel-base allows for easy maneuvering on winding and narrow roads.

# Romulus Tanker 1321

This photo was taking during a drill – so the 2,500-gallon dump tank normally carried on the side of the tanker is being used at the dump site.

# Romulus Tanker 1321

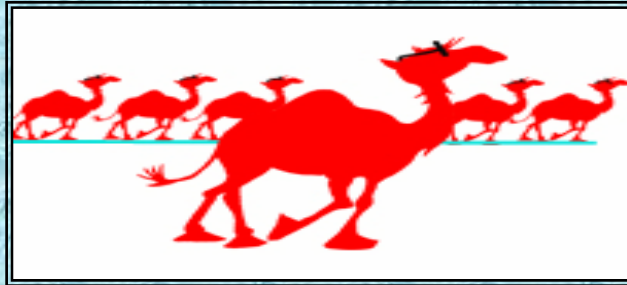

The larger direct fill lines allow for a faster fill time. FYI – the 3-inch fill hose shown in this photo was changed out for a 4-inch line later in the drill.

# Romulus Tanker 1321

The tanker's 10-inch rear dump makes quick work of off-loading the rig's 3,000 gallons of water.
